# Cemetery History

## West Dundee Cemetery

The West Dundee Cemetery is located on Route 31 across from Spring Hill Mall. The 9-acre west cemetery started as a private family burial place. It was owned by Alfred Edwards and began when he buried his 2-year-old daughter, Olivia. Years later, he donated a portion of it to Dundee Township. Although there is a burial dating to 1834, this cemetery was not incorporated until 1861 when the Dundee Cemetery Association, a private corporation, was formed.

The Dundee Township Association ran the cemetery until May 23, 1950, when the township voters passed a referendum to accept the proposal by the trustees of the Dundee Cemetery Association to consolidate its cemetery, together with all its funds, equipment, etc. thereto belonging, with the Dundee Township.

There are no available plots in this Cemetery although burials still occur for those who have existing burial rights.

## East Dundee Cemetery

On April 18, 1892, the citizens of East Dundee by vote decided to have a township cemetery and elected three trustees as the board of cemetery trustees, including D. C. Adams, O. W. Smith and C. W. Schlueter. The trustees began with the purchase of land at the corner of routes 72 and 25 in East Dundee. The first purchase was in 1893 - 10 acres from Almena and George Giddings estate for \$1,500. The second parcel was purchased in 1926 and added 7.94 acres from Hugo T. Kluska for \$3,500. Then in 1933, 20.05 additional acres were purchased from Claude and Marion Healy for \$7,175. Finally, in 1956, the final 10 acres was bought from Clarence Schroeder for \$9,500. In total, the East Cemetery has 47.99 acres of land that were purchased for a total cost of \$21,675.

At the current rate of usage, the East Cemetery should have enough available land to continue to offer burial space for the next 75 years. See the next page for the burial options available at the Cemetery.
